

Literacy/Topic:

We have been telling stories in Literacy this week. Our stories have been based on legends and traditional tales. Tell a story to someone at home and ask them to write down (in your homework book) what your story was about, including who the characters were and what event happened.

Can you change your story to include a character from a different story? What happens? Do these mixed up characters get on with each other? Write your short story in no more than 150 words!

Numeracy:

1. Can you solve these money problems?
2. Remember to estimate first to be able to check against your answer.
3. Remember to show your workings out! Good luck!

1. 697 divided by 17 =
2. 414 divided by 18
3. 608 divided by 19 =
4. 368 divided by 23 =
5. 560 divided by 16 =
6. 567 divided by 27 =
7. 588 divided by 14 =
8. 595 divided by 35 =

4. Try dividing £19.20 equally among 2 children, 3 children and then 4 children.
How much does each child get?
How many groups can you find where each child gets an exact amount of money?

Other Activities:

The Aztecs used mosaic for many of their sculptures and masks. Can you find any examples of mosaics and find out where they originated from?

If you can find any pictures, stick them in your homework book!

How many words can you make using the letters in

TWO THOUSAND AND TEN?
