

Literacy/Topic:

We have been telling stories in Literacy this week. Our stories have been based on legends and traditional tales. Tell a story to someone at home and ask them to write down (in your homework book) what your story was about, including who the characters were and what event happened.

Can you change your story to include a character from a different story? What happens? Do these mixed up characters get on with each other? Write your short story in no more than 150 words!

Numeracy:

Use the most appropriate method to find the answer to these calculations. Make sure you show you're working out.

1. $132 - 69$
2. 15×6
3. $6758 - 100$
4. 888 divided by 4
5. $654 + 542$
6. 12×4
7. $140 - 30$
8. $654 + 54$

Other Activities:

The Aztecs used mosaic for many of their sculptures and masks. Can you find any examples of mosaics and find out where they originated from?

If you can find any pictures, stick them in your homework book!

How many words can you make using the letters in

TWO THOUSAND AND TEN?
